Chairman William E. Kennard Federal Communications Commission 445 12th Street, SW Washington, DC 20554

Ex Parte contact in CC Docket Nos. 96-262, 94-1, 99-249 and 96-45

Dear Chairman Kennard:

I am writing about a particular aspect of the pending CALLS proposal. Specifically, University of Puget Sound, objects to retention of the Multi-Line Business PICC (MLB PICC) as a charge levied by long distance carriers. University of Puget Sound does not object to retention for the time being of the MLB PICC, provided that Local Exchange Carriers (LECs) bill the MLB PICC directly.

The weighted average MLB PICC found in ILEC tariffs is about \$2.50 per line per month. The MLB PICC levied by major long distance carriers, however, is about \$4.00 per line per month. The long distance carriers claim that the PICCs that they charge only recover their costs, even though their mark-up exceeds fifty-five percent. Business users, including educational institutions, should not be required to bear this dead weight loss any longer.
